Spouted Stand Up Pouch 6 Step Process

1. What are you packaging? (water based, oil based, etc)...this will help us determine the material
2. What size are you looking for or do you need our help to determine it? (what amount do you want to get into the pouch...8 ounces, 300 grams, etc)
3. What size/style spout do you want (6mm, 9mm, 18mm, 23mm, and Straw Type)

4. Do you want to be able to see your product or even have a window? This will help us determine whether we use a clear structure or a foil laminated one...
5. How many do you need?
6. How soon do you need them?
